Systems

| WUI COMPLIANT SOLUTIONS

## Achieve WUI Compliance with our Aluminum Siding Planks

In the face of increasing wildfires, ensuring your property is compliant with Wildland Urban Interface (WUI) regulations is of utmost importance. Our FastPlank<sup>®</sup> Systems meet California's Fire Code requirements, and guarantees durability and resilience, ensuring long-lasting protection against wildfire threats. Crafted from extruded aluminum, metal building products have outperformed and outlasted competing materials in the harshest conditions.

FastPlank<sup>®</sup> offers exceptional fire resistance, providing an extra layer of protection to homes and buildings situated in WUI areas. Homeowners and property developers can rest assured that their structures meet the requirements for WUI.
