

 **Plycem**[®]

Fiber Cement Trim

You'll be Brimming with Trim Options

With all the advantages of wood trim and none of the limitations, Plycem Fiber Cement Trim provides the superior strength and stability that maintains its beauty and value for the seasons of your life.

Versatility

Machined square edges create a cleaner look with the smooth finish of high-end construction. Plycem Fiber Cement Trim is well-suited for a variety of exterior corners, windows, columns, doors and more, adding grace and elegance to any style of architecture.

Durability

The winning formula behind Plycem Fiber Cement Trim withstands damage from impact and is termite resistant.

Workability

There is no need for special tools on the job site. The same saws and installation tools traditionally used for building with wood products will be all you need to cut and mount Plycem Fiber Cement Trim.

Environmentally Friendly

Plycem Fiber Cement Trim is made from a premium of non-aggressive materials that safeguard human health and the environment. Our manufacturing process employs principles of conservation that meet international environmental standards, such as ISO 14001.

- *Market-leading performance*
- *Industry-leading warranty*

A Beautiful Frame of Mind.

With so many trim options and so many texture and color choices, beauty that lasts brings a whole new meaning to your fiber cement home exterior and finish.

Plycem offers the most authentic cedar wood grain in the industry, and an exceptional smooth side that makes any application the perfect application with a beautiful frame of mind.

Product comes primed ready for painting with 100% acrylic latex paint, or prefinished with the Allura ColorMax® Finishing System.

Cover home: Allura Cedar Lap and Half-Rounds in Cypress and custom accent color.

Allura products are designed to work together and complement each other in color and style to give your home a beautiful finished look.

SUPERIOR DESIGN

As a low-maintenance alternative to wood, Allura offers a broad lineup of profiles, decorative siding, shakes, soffits and trims. Historically accurate wide board and batten, wide profiles and vertical panels create attractive architectural designs.

SAFE & DURABLE

Allura has a Class A (1) flame spread rating, will not rot, resists UV rays, and is impervious to wood-boring insects. Our proprietary primer/sealer ensures better weather-resistance by sealing out harmful moisture.

PREFERRED BY PROS

Professionals have come to rely on Allura's outstanding customer service, on-hand inventory capabilities, and premium quality products.
