

GREEN BRIEF

LP® SmartSide® Trim & Siding products deliver the beauty of cedar, plus the durability and workability of engineered wood. We offer a complete line of primed trim, fascia, soffit, lap, and panel products that work and cut just like traditional wood, without the knots. Our LP SmartSide products are engineered with LP's proprietary SmartGuard® process to help protect against fungal decay and termites. And all of our SmartSide products are backed by a 5-Year, 100-Percent Labor and Replacement Guarantee, along with a 50-Year Prorated Limited Warranty on the substrate.

LP SmartSide & the Environment

Manufacturing

- LP SmartSide products are made from wood – a renewable, natural resource.
- Our wood procurement process targets small, fast growing trees that can be replenished more quickly than larger, older trees.
- We use SFTI® certified forest management and fiber sourcing systems to help ensure that our wood comes from well-managed forests.

- The entire log is used in our manufacturing process. All wood waste is repurposed or used to help fuel our mills.
- We only use low-emitting, safe resins in the manufacture of LP SmartSide products, and do not add any urea-formaldehyde.
- Our proprietary SmartGuard® manufacturing process utilizes zinc borate to help protect against fungal decay and termites.

Product Performance

- LP SmartSide products can help builders reduce waste on the jobsite:
 - The absence of knots helps reduce scrap woodpiles.
 - Longer product lengths reduce the number of pieces needed.
 - Extreme durability means less material lost to breakage.
- Our LP SmartSide products may help you achieve certification points in a number of leading green building programs.

Conserve. Create. Renew.

At LP, our approach to the environment can be summed up with three words: conserve, create and renew. As a leader in the building products industry, we view it as our responsibility to be good stewards of the environment and to develop and manufacture products that help builders build better homes.

To us, “green” is about conserving natural resources, creating products that help builders reduce waste, and finding ways to utilize renewable energy sources and reduce waste throughout our operations.

GREEN BUILDING CERTIFICATION PROGRAMS

The use of LP SmartSide may help you qualify for points in leading green building programs. The information below was compiled from relevant sections within each program and is for guidance only. This resource is designed to help you quickly identify areas where you could potentially earn points. Since program requirements vary and details may change, verify qualification criteria with each individual program. For specific questions related to LP products, please call 888.820.0325.

Single Family United States

PROGRAM	CATEGORY	SECTION	ITEM	DESCRIPTION	POINTS
	Resource Efficiency	Enhanced Durability and Reduced Maintenance	602.8	Termite-resistant materials	2 to 6
	Resource Efficiency	Renewable Materials; Biobased Products	606.1.b	Engineered wood	3 to 6
	Resource Efficiency	Renewable Materials; Certified Wood	606.2.e	Sustainable Forestry Initiative (SFI)	3 to 4
	Resource Efficiency	Renewable Materials	606.3	Materials used for major components are manufactured using renewable energy.	2
	Resource Efficiency	Renewable Materials; Resource Efficient Materials	607.1	Engineered wood	3
	Resource Efficiency	Indigenous Materials	608.1	Components used for major elements are extracted, processed, and manufactured within 500 miles.	2
 LEED for Homes	Innovation and Design Process	Innovative Design	ID 3.1, ID 3.2, ID 3.3, ID 3.4		up to 4
	Materials and Resources	Environmentally Preferable Products	MR 2.2	Local production. Use products that were extracted, processed, and manufactured within 500 miles of the home.	1/2 pt
 EarthCraft House™	Resource Efficiency	Local, Recycled, and/or Natural Content Materials	RE3	Use building materials extracted, processed and manufactured within 500 miles of site.	3
	Durability and Moisture Management	Products and Applications	DU 1.15	Siding; Exterior cladding with three or more sides and 40 year warranty	1
	Innovation	Project Specific Innovation Points	IN 1.3		TBD
